## SEES NO GOOD IN UNIONISM.

President Industrial Association Talks Plainly.

Strongly Opposes Unions and the Closed Shop.

Advocates Arbitration to Settle Labor Disputes.

(BY THE ASSOCIATED PRESS—A.M.)  
BATTLE CREEK (Mich.) Oct. 7.—The convention of the National Citizens' Industrial Association opened here today with about fifty of the expected delegates present. President C. W. Post of the city made an address, strongly opposing unions, and the closed shop. He said:

"It is manifestly a much greater restraint of trade, annoyance and loss to the people of the country than the mere travel and shipping than it is for the oil trust to obtain from the railway rebates not enjoyed by its competitors, for the last is simply a peaceful 'snag' between business men. We have laws to punish these men, who bring disaster, loss and suffering upon a community, and we must demand action by our public prosecuting officials in such cases."

**CITIZENS MUST CONTROL.**  
"Citizens must keep control of community affairs and not allow them to pass into the hands of the leaders of labor unions."

"The labor trust has been credited with helping workmen. If it has ever increased their wages it has been in exact proportion to the amount extracted from the people."

"No labor union can permanently raise wages, some of the best paid workmen in America are non-union. The condition of trade and scarcity of labor or material always has and always will determine the price of both labor and material by an inexorable law of nature."

"Labor unionism too often develops a spirit of hate which grows more demagogical day by day. When it dominates some men it slowly or quickly transforms them into criminals and even murderers."

"The past history of unionism teaches from its acts that some of its members stop at nothing to accomplish their control of other citizens and to wreak vengeance when restrained. Having been carefully controlled by the people's laws, they more persistently beset Legislatures and Congress to enact special laws to give unionism more power over the people and to prevent punishment for their acts of lawlessness. Millions' worth of property has been destroyed, and millions in wages lost to working men by the insane efforts of paid union officers in seeking to wrest control of affairs from the people."

**POINTS TO SAN FRANCISCO.**  
"Every man who loves his country and cares to preserve his own and his neighbor's liberty should raise himself to resist the further encroachments of this destructive epistle."

"Let labor unionism have its own way unrestricted by the common people, and we might expect every home owner would lose his home which would be absorbed by the State, under Socialism, and the State, of course, governed by labor union leaders with all of the success to themselves shown in union governed San Francisco."

"The most effective way for citizens including all who are not in the union, to protect themselves, their personal liberty, their property, and their towns and cities is to organize Citizens Associations and demand that capital trusts, labor trusts and all other organizations obey the law, keep peace and not interfere with the steady conduct of railways, telegraphs, mails or any other enterprise required to be kept in operation for the well-being and support of the people."

"The time has gone by when the great majority of the citizens will tamely submit to having public utilities, factories, etc., shut down by a few men because they cannot gain for themselves a little extra money or adoration in the way of recognition of their 'union.'"

"Business men are expected to settle their differences peacefully and without bringing income and loss to the community, assaulting men, blowing up property or committing any other act of violence and the public now demands that labor unions conduct their business on the same lines."

**FAVORS ARBITRATION.**  
"Public opinion is the ultimate ruler in America, and the men who have the right on his side, and can let the people know it, will win. To apply this practically a well-organized citizens' association should have an arbitration committee. Then when a question cannot be decided between employer and employee submit it to the committee of citizens, who are infinitely better fitted to know what the local conditions are and what action will bring the greatest benefit to the community, than any outsiders. This committee educates the people to right thinking and prevents destruction of industries which may represent the very life blood of the place. Our workpeople need and demand protection from the designing or inquisitive men who rush into strikes, tie up industries, and by mob rule bring distress upon the whole community. There is a far better way to operate under control of the citizens rather than labor unions."

"A good illustration is shown in Battle Creek, where for years, during the troublous times in various trade centers infected with labor unionism, this community, solidly in favor of high wages and good treatment, has gone on prosperously. The work people in Battle Creek are the richest in Michigan as a result of their own union management. This is shown by over 15,000 savings accounts in a town of 15,000 people and from the fact that most Battle Creek workmen own their own homes, are out of debt and have money at interest. This making them combined workingmen-capitalists, the perfection of ideal citizens."

"It is a startling condition which confronts our workmen and citizens at the present day. As we people manage to graduate a great many lawyers, doctors and professors, but practically no artisans."

**THE PUBLIC APATHETIC.**  
"The apathy of the public has been taken advantage of by the labor unions to prevent our young men from acquiring an education in the mechanical arts. It is easy for a boy to graduate in medicine, but where can he acquire a complete education as a blacksmith, cabinet maker, bricklayer, machinist, pattern maker, moulder, or in any other branch of the mechanical trades?"

"It seems plain that if we have managed to secure an enormous foreign trade for our machines and various products through the commercial skill of our manufacturers and merchants, combined with the mechanical skill of

our mechanics, we must educate the coming generation in the mechanical arts if we would maintain and preserve our present position in the markets of the world."

"But, under the forced restriction of the labor unions, many thousand boys are prevented from learning a trade. It is of the utmost importance that manual training schools be added to the regular school system of every community, however small it may be. Even the country school-house could, with advantage, add a manual training department and I will predict to you that 90 per cent of the scholars would drop their books quickly in order to enjoy the pleasures they would derive from training the hand in combination with the mind."

"It is plainly apparent that we, as citizens, are derelict in our duties if we do not persistently advocate the use of a sufficient part of the school funds to establish manual training departments, where the members of the coming generation may be trained to support themselves. Once that is done, pauperism will be reduced and the country as a whole be more firmly established upon a self-supporting basis."

"On the contrary, if the present trend toward professional education is continued, we shall, within the next twenty years, feel the hurt tremendously."

"The greatest opposition to this movement of general education is organized labor, selfish to the limit, fearful at all times the young man, after trained, will take the places of the present members of the labor trust."

**PROTECTION FOR TYRANNY.**  
"To sum up, it is the work of the National Citizens' Industrial Association to help the common man, the average citizen to protect himself and his fellows from the tyranny of any combination which seeks to wrest from the people their God-given and constitutional right to govern themselves. Always following a free people comes hate and tyranny seeking like evil spirits to control and subjugate. This is as it was in olden days when our ancestors sought the dangers of the sea in the old Mayflower, and braved the beasts of the forests and the more savage Indians rather than submit to prostituting their liberties to the dictates of hate and tyranny."

"So now when a few men hate the balance of their fellows and seek to dictate that they work or not work, that they join an organization and pay tribute, that they place themselves absolutely under control of certain paid officers and that their lives and lives of their families be directed by such officers, then the old spirit of America is reborn, and we must resist. Always following a free people comes hate and tyranny seeking like evil spirits to control and subjugate. This is as it was in olden days when our ancestors sought the dangers of the sea in the old Mayflower, and braved the beasts of the forests and the more savage Indians rather than submit to prostituting their liberties to the dictates of hate and tyranny."

"The infinite father of us all is today as impatient that the sons of his freedom as he was in any period of the years gone by. Have a care how you ignore the promises which are made to you, for you are today, as in the days of old, ready to lose anything, everything, rather than bend knee or bow a craven's head to the despotic, ordered, organized tyranny."

SANTA FE RAILROAD GIVES TELEGRAPHERS SURPRISE.

For Second Time in Twelve Months Read Voluntarily Increases Pay of All Keymen on System, Making Total of Eight Per Cent for Non-Union Workers.

(BY THE ASSOCIATED PRESS—A.M.)  
TOPEKA (Kan.) Oct. 7.—The Atchafalaya, Topeka and Santa Fe announced today an increase in the wages of all telegraphers on the system.

The increase, which went into effect October 1, came as a surprise to the men, the first knowledge they had of it, being a voluntary announcement by the company. Here is the list of increases:

Operators on the Illinois and Missouri divisions, \$4 a month; on the Kansas City, Eastern, Southern Kansas, Midland, Western Oklahoma and Panhandle divisions, \$5 a month; on the Arkansas River, Colorado, New Mexico and Santa Fe divisions, \$6 a month. This is the second increase in wages the Santa Fe operators have had in the last twelve months. The increase in that time being about 8 per cent. The road employs non-union operators.

**SAILORS' UNIONS LOSE APPEAL.**

INJUNCTION AGAINST PICKET IS AFFIRMED BY COURT.

Laborers First Declare That Victim "Has Relief in Suit for Damages, as Organizations Have Big Fund, Then Try to Escape by Whining Insolvency."

(BY THE ASSOCIATED PRESS—A.M.)  
SAN FRANCISCO, Oct. 7.—The United States Circuit Court of Appeals today decided against the sailors' union and the Pacific Coast Marine Firemen's Union in their appeal from the injunction issued by the Circuit Court on the application of the Hammond Lumber Company, which claimed that it had been damaged by the amount of over \$10,000 by the interfering with its vessels' union picket boat crew dissuading crews from sailing on them.

It was also stated that the unions were insolvent and could not pay damages, if awarded. In appealing, the unions stated that they were solvent, having a fund of \$100,000, and that the appellee had relief in suit for damages; that the injunction was violative of their rights; that they had a right to endeavor to improve their condition, to organize for that purpose and to communicate their desires to others for that purpose.

In affirming the former judgment and so making permanent the injunction, the judge gave as their opinion that "the insolvency or insolvency of the appellants was immaterial, as in cases of the continuing trespass measure of damages was difficult to ascertain, and the injunction was issued to restrain the liberty of the appellants but to 'prevent lawlessness.'"

(BY THE ASSOCIATED PRESS—A.M.)  
CLEVELAND (O.) Oct. 7.—The Cleveland News said: "Upon what may be accepted as indisputable authority the News is enabled to say that the telegraphers' strike will probably end in Cleveland, at least, Thursday morning. A request was sent to E. Matern, local leader of the strike, for permission to return to work on Thursday. It is said by persons interested in the coming negotiation may be trained to support themselves. Once that is done, pauperism will be reduced and the country as a whole be more firmly established upon a self-supporting basis."

BUDAPEST, Oct. 7.—Percy Thomas, deputy national president of the Telegraphers' Union, today resigned, and national President Small announced that he would make his headquarters here on the 10th of October, the day of the telegraphers from this city.

Thomas's resignation is reported to have resulted from the action of President Small at the strikers' meeting yesterday, in declining to endorse the local union in its move to call out all leased-wire operators whether under contract or not.

Secretary Wilson said friends of Mitchell believe he is on the road to complete recovery.

**RIOTING BEGUN IN CEMETERY.**  
RUSSIANS IN ODESSA CONTINUE THEIR PERSECUTION.

Members of United Unionists Fire Volleys Into Concourses of Jews Holding Funeral Service, Wounding Many of Them—Hebrew Shops Are Pillaged.

(BY THE ASSOCIATED PRESS—P.M.)  
ODESSA, Oct. 7.—The United Unionists of Odessa continued today their attacks and outrages on Jews. They began by surrounding the Hebrew cemetery, where a funeral service was going on. They tossed and then fired a volley of revolver shots at the mourners. Many of them were wounded.

The Jews fled in panic. Members of the Black Hundred divided themselves into small groups, ransacked several Jewish shops and pillaged the stores. A police sergeant who attempted to intervene was brutally attacked, whereupon he drew his revolver and killed one of his assailants.

There were fewer police than usual on the streets today. After further Jew-baiting, Cossacks arrived on the scene, but instead of pursuing the Black Hundred, they laughed at the rapidly with which they made their escape. Up to the present time Gov. Gen. Novitsky has made no attempt to stop the outrages, but nevertheless they are diminishing gradually.

Several Jewish tea rooms were ransacked, and numerous Jews were brutally beaten. Eighteen of them are sent to hospital. The streets are packed with Jews, many of whom are fleeing. Extreme nervousness is felt by the Jews, and the streets have been practically deserted by them.

As an indication of the methods employed by the mob to catch the unwary Jews, the correspondent of the Associated Press while on his way to the city today, was stopped by a Black Hundred street by six Unionists, each wearing a different uniform. Subsequently the correspondent was permitted to proceed, one of the men remarking: "We are not anarchists, and only beat Jews and revolutionists."

**DUKE HONORED IN DEATH.**  
Thousands of Persons Follow Body of Frederick of Baden to Its Last Resting Place.

(BY THE ASSOCIATED PRESS—A.M.)  
KARLSRUHE (German) Grand Duchy of Baden Oct. 7.—The funeral of the Grand Duke Frederick of Baden, who died at Mainz, September 28, took place here today, and was a brilliant ceremony.

Emperor William, the imperial princes, the Duke of Connaught, Ambassador Tower and representatives of all foreign nations, and the civil and military authorities participated in the funeral procession. The Duke's body was placed in a hearse and carried through the streets lined with troops who fought with the Grand Duke during the war of 1870-71 against France.

Many thousands of mourners followed the procession, including twenty regiments of German troops. The Crown Prince of Sweden, Rumania and Belgium, the Prince Consort of the Netherlands, the Archduke Salvator of Austria, and Grand Duke Nicholas Michailovitch of Russia.

(BY THE ASSOCIATED PRESS—A.M.)  
ATLANTA (Ga.) Oct. 7.—Men who grow cotton and men who manufacture it into clothes for the markets of the world, met in the State Capitol today in the international conference of the Cotton Growers' and Manufacturers' Association.

During the three days' sessions of the conference, questions of the utmost importance to growers and consumers will be discussed, and action is looked for that will radically change for the better the methods of handling and marketing the great staple of the South.

President James H. McCall of Providence, R. I., called the meeting to order. Former President Arthur Kneller of Vienna, Austria, and delegates from Great Britain, Germany, Belgium, France and Spain were in the audience.

President McCall, in his opening address, said:

"One important aspect which those of us who are Americans, whether growers or spinners, have in view, is to demonstrate to our European friends, who consume two-thirds of the crop, the wonderful resources yet undeveloped in the cotton industry of the South. We want them to see for themselves that America will grow all the cotton that the world needs."

"All admit that the time has now come for a definite suggestion and prompt action to effect needed reforms. To this end we should discuss, in a comprehensive way, which would effect an enormous saving in transportation and marketing of the overburdened railroads to move expeditiously the ever-increasing crop."

**ELIMINATE MIDDLEMEN.**  
The planter, if he wants to sell direct to the spinner, must in some way do the work of the middlemen, and have the same financial responsibility. He must grade, carry and finance the cotton, and he must also be able to protect himself against the fluctuations of the market."

CAN'T TELL WHETHER SMELTER DIVIDEND WILL BE CUT.

Evades Direct Answer to Report That Robert, His Youngest Brother, Had Lost \$4,500,000 in a Deal With Pierpont Morgan in Steel—States Optimistic Opinion as to Future.

(BY DIRECT WIRE TO THE TIMES.)  
DENVER (Colo.) Oct. 7.—(Exclusive Dispatch.) Daniel Guggenheim, head of the smelter trust, today when asked if the smelter dividend would be cut, said that he could not tell for certain, and that it would have to be passed up to the directors.

Neither did Mr. Guggenheim deny positively that Robert, the youngest member of the great household, had been beaten out of \$4,500,000 in a deal with Morgan in steel.

Mr. Guggenheim did say that his family were not gamblers, and if any members of the family had lost as much money as that, he would probably have heard of it. He maintained, however, that the money market was responsible for the severe decline in smelter stock, together with other securities, and went on to insist that that now was the time for the bimetallists to get in their work at the psychological moment. He is optimistic over the future, and has this to say of the outlook:

"The people have been too extravagant. The country has been too prosperous. It has been the same all over the world. There has not been enough money, or labor either, to carry on the business, but it will only be a question of a short time when things will pick up again. Already the people have begun to let up and the recession has started. A recession in business at this time would be the best thing that ever could happen to this country. A 25 per cent recession will change the entire money condition of the United States."

Piles Quickly  
Cured at Home

Instant Relief, Permanent Cure—Trial  
Package Mailed Free to All  
in Plain Wrapper.

Half of the suffering and torture of  
piles has never been told. But no matter  
whether your particular case of  
piles is almost too excruciating for  
any mortal to bear, or if you are fear-  
fully tantalized by unreasonable itching,  
or whether you have only a mod-  
erate case of piles, there is positive  
relief, and quick too, in Pyramid Pile  
Cure.

You need not take for granted all  
we ourselves say about our Pile Rem-  
edy. We want it to speak for itself.  
We want you to send for a trial pack-  
age, today, of the marvelous Pyramid  
Pile Cure. We want to prove these  
statements to you personally, so that  
you will feel the result yourself.

Follow a few simple directions. Get  
well to stay well.

You don't have to stop working one  
single day.

No tortures from operations.

No heavy doctor's bills.

For instance is a sample of  
the kind of letters we get every day,  
and we don't have to ask for them:

"Friend: I write to tell what good  
your Pyramid Pile Cure has done for  
me. I used your sample, and it did  
me so much good I went and got two  
boxes, and I used one and I am an-  
other man altogether. I have no pain,  
no piles, and I have been troubled  
with them for over fifty years, and  
could find no relief till now, thanks to  
your timely cure. Use my name if it  
will do you any good. Isaac Smith,  
Wharton, New York."

For Free Sample, send to the Pyra-  
mid Drug Co., 96 Pyramid Building,  
Marshall, Mich., or you can buy Pyra-  
mid Pile Cure in any drug store for  
50 cents a box.

## CONVICTS HAPPY.

MANY FELONS  
MAY GO FREE.Illinois Court Decision Opens  
Door to Hundreds.Municipal Court Exceeded  
Its Jurisdiction.Brutal Murderer Among  
Those Who May Profit.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 7.—[Exclusive Dis-  
patch.] Several hundred convicts in  
the Joliet State prison and in the Chi-  
cago Bridewell prison, including one  
murderer, serving a life sentence, are  
likely to gain their freedom under a  
decision of the Illinois Supreme  
Court.

The Supreme Court holds that the  
new Chicago municipal court does not  
have jurisdiction in Cook county out-  
side of the Chicago city limits. Hun-  
dreds of criminal cases had been trans-  
ferred from the Cook County Criminal  
Court to the municipal court on in-  
dications reciting that the crime was  
committed in Cook county, without  
specific reference to Chicago.

The decision nullifies hundreds of  
convictions.

One case of marked attention is that  
of Rudolph Jonas, convicted of a mur-  
der of astounding brutality, and sen-  
tenced to the penitentiary for life,  
who will be given his freedom within a  
fortnight, his attorneys declare.

Jonas was found guilty by a jury  
in the municipal court last February  
on the charge of murdering Frank  
Woeke by kicking him into the river  
at La Salle street. After the prisoner  
was condemned to life imprisonment,  
Attorneys John E. Wayman and  
Charles Furthman contended that the  
municipal court was acting without  
jurisdiction, and asked for a writ of  
habeas corpus before Judge McEwen.

The recent decision of the Supreme  
Court supports their contention.

Jonas should have been tried by the  
Criminal Court, but owing to the  
crowded dockets of the North Side  
courts, the case was transferred at the  
last minute to the municipal court.

Hundreds of similar cases exist. In  
all, it is declared, the prisoners will  
be entitled to freedom under the four-  
term act, which provides that a pris-  
oner must be brought to trial within  
four terms of court after his incar-  
ceration.

JURY FINDS "NOT GUILTY."  
CALIFORNIA YOUTH FREED.

(BY THE ASSOCIATED PRESS—A.M.)

NAPA, Oct. 7.—After several hours  
deliberation, the jury in the Superior  
Court late this afternoon returned a  
verdict of "not guilty" in the case of  
the people vs. Harry Tucker and Len  
Brooker, two California young men ac-  
cused of robbery with violence.

The defendants were accused of hold-  
ing up "Joe" Hager on a lonely road  
near Calistoga on February 3 last, and  
after severely beating him, of stealing  
the bicycle he was riding.

While waiting preliminary examina-  
tion they left the State, but were  
brought back on extradition papers.

## MISSOURIANS SIGN MEMORIAL.

Religious Workers from America Join  
in Friendly Declaration for Peo-  
ple of Japan.

(BY THE ASSOCIATED PRESS—A.M.)

TOKIO, Oct. 7.—American mission-  
aries in Japan, to the number of 100,  
have signed a memorial, in which,  
while disclaiming any desire to mix in  
politics, they assert that their sole  
desire is to remove misunderstanding  
and testify to the sense of interna-  
tional justice, the faith and friendship  
of the United States, and their belief  
that the representatives of the belig-  
erent attitudes of the Japanese do  
not represent the true feeling of the  
nation.

The signatories of the memorial say  
they desire to record their apprecia-  
tion of the universal courtesy and  
helpfulness of the people and the gov-  
ernment of Japan. The memorial was  
simultaneously signed by missionaries  
of all sects.

A number of additional promotions  
to the peerage are expected to be made  
shortly, and to include Count Hay-  
ashi, Minister to China; M. Uchida,  
Minister to Austria-Hungary, and the  
Governors of Tohoku, Osaka and Kyoto.

The Crown Prince of Japan will leave  
for Korea, October 10, unless the epi-  
demic of cholera in that country in-  
creases. At present the disease is  
spreading seriously. A case is re-  
ported inside the compound of the re-  
sident general.

CO-OPERATION.

SECURES BIG  
MEXICAN GRANT.

LOS ANGELES CO-OPERATIVES  
GET 200,000 ACRES.

President Byron Hall of La Pro-  
speridad Association Enthusiastic  
Over Outlook for Unique Coloniza-  
tion Scheme—To Incorporate in  
California.

(BY DIRECT WIRE TO THE TIMES.)

MEXICO CITY (Mex.) Oct. 7.—[Ex-  
clusive Dispatch.] Byron Hall, of Los  
Angeles, president of the La Prosp-  
eridad Colony Association, recently or-  
ganized in that city, has secured from  
the Mexican government through the aid of  
Ambassador Crel and other officials  
close to President Diaz, a concession for  
200,000 acres of land in Lower Califor-  
nia to be colonized and developed by the  
cooperative association of which Mr.  
Hall is the head.

Mr. Hall is enthusiastic about his  
plan which he says is the first practical  
cooperative agricultural and coloniza-  
tion project ever launched in America.

More than 100 men and women have  
already been enrolled as charter mem-  
bers and the plans for the colony have  
progressed so far that it is expected the  
first ship-load of colonists will depart  
from San Pedro or San Diego for the  
Lower California Coast within the next  
sixty days.

The grant secured by Mr. Hall lies  
in the center of the peninsula extending  
from the ocean to the coast range and  
having for its northern and southern  
boundaries, respectively, the St. Ger-  
trudis Mountains and the San Pablo  
range.

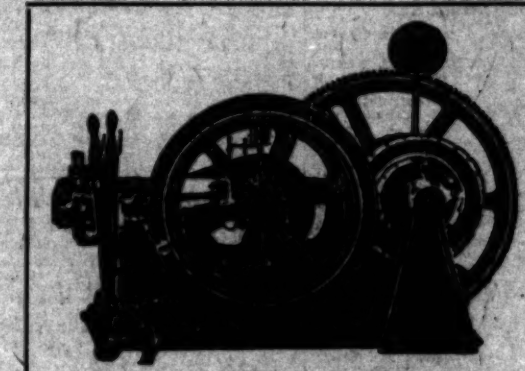

The colony will incorporate in both  
Mexico and California.

Delegates to the convention of the  
German-American National Alliance  
voted yesterday to accept William R.  
Heard's offer to send twelve delegates  
to Germany at his expense next year  
to establish an international alliance.

The delegates went to Boston in the  
afternoon to visit the Germanic Mu-  
seum at Harvard.

## REMEMBERED BY PRESIDENT.

Frank Frantz, Defeated for Re-election  
as Governor of Oklahoma, Will Be  
Given Government Position.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Oct. 7.—[Exclusive  
Dispatch.] Frank Frantz, Territorial  
Governor of Oklahoma, will be con-  
sidered for his defeat in the election for  
Governor of the new State by an ap-  
pointment to an important govern-  
mental position.

It is practically decided on that he  
will be made First Assistant Secretary  
of the Interior to succeed Judge Thom-  
as Ryan, who was broken in health  
last winter and was forced to take the  
entire summer to recuperate. He will  
not be able to continue the active  
work required in his present position.

It is understood that an endeavor will  
be made to find another place for Mr.  
Ryan, who is to leave the Interior De-  
partment.

Frantz is a former Rough Rider,

## and is a favorite with the President.

Judge Ryan is a well-known Kansan,  
and for many years represented the  
Tulsa district in Congress.

## DECLARES FRAUD IS PROVED.

Assistant Attorney-General Clossa Case  
Against Alleged Land Grifters in  
Denver.

(BY THE ASSOCIATED PRESS—A.M.)

MILWAUKEE, Oct. 7.—In the case  
of the government against the officials  
of the Federal Coal and Iron Com-  
pany, indicted at Denver for alleged  
fraud in entering land, Special Asst.  
Atty.-Gen. Knebel this afternoon be-  
gan the closing argument before the  
Federal Court Commissioners.

He declared the proof showed a con-  
spiracy and fraud against the govern-  
ment, for which the parties indicted  
should be held for trial in Denver.

Attorney Hugh Ryan will close for  
the defendants, after which the com-  
missioner is expected to make his ruling.

## PREACHERS WANT MORE PAY.

Churches Face Crisis Due to Mini-  
sterial Stampede into Business  
Life.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, Oct. 7.—Reports received  
by the Tribune from ten of the Meth-  
odist Episcopal conferences in Illinois  
and neighboring States show that the  
question of higher salary for the aver-  
age minister of that church has  
reached a crisis.

The generally expressed opinion is  
that religious work soon will suffer for  
lack of preachers unless salaries are  
raised. In many of the conferences  
just held there was an exodus of  
preachers from the pulpit to enter  
business life. The higher salaries  
movement was discussed and advo-  
cated at practically all the confer-  
ences.

Salaries have been advanced about  
\$100 each during the last four years,  
but this increase, which has not kept  
pace with the increase in cost of liv-  
ing, and has failed to stem the mini-  
sterial stampede into business life.

## THE CITY IN BRIEF

### NEWS AND BUSINESS.

#### At Grand Lodge.

Motley H. Flint, past-grand master of the Masonic order, is attending a meeting of the Grand Lodge in San Francisco.

#### "Fresh Paint."

All the mail boxes in the city soon will wear a new coat of delicate green paint. In accordance with an order from Washington, a contract has been let for painting all the boxes.

#### New Tax Office.

The new quarters for the County Tax Collector in the Crowell building at Spring and Franklin streets, probably will be ready for occupancy by the middle of the present week.

#### Avalon Wants Bridge.

Catalina precinct, seldom heard from by the supervisors, presented a petition yesterday for a bridge across the "run" on Catalina, the main thoroughfare to the Avalon public school. In winter the run is said to be almost impassable. The request was granted.

#### Phonics Go Up.

After November 1 Los Angeles residents will have to pay \$3 a month for each home telephone. No one to this effect was served on the supervisors yesterday. The advance was made some time ago, without due notice, and the bills for the last few months have been held up.

#### Bridge San Dimas Wash.

The supervisors yesterday ordered the preparation of plans for a thirty-foot bridge across the San Dimas wash, on Grand avenue, in the Glendora road district. This point has for a long time been a nuisance to travelers during the rainy season.

#### Pharmacy Examination.

The yearly examinations of applicants for certificates as registered pharmacists will be given tomorrow morning at 9 o'clock in the College of Medicine, U.S.C., on Buena Vista street, under the direction of the State Board of Examiners.

#### Mines Concrete Expert.

The County Highway Commission has engaged H. C. Millette, a concrete expert, to make concrete and bridge estimates for the commission's general report. Millette is to receive \$3 a day for time actually employed, and the supervisors yesterday approved the appointment.

#### Seal Suffrage Meeting.

The Los Angeles Political Equality league held a meeting at the Woman's Club house yesterday, at which there was a large attendance. Miss Dain spoke on the results of women suffrage in New Zealand. Meetings are to be held in the clubhouse on the last Saturday of each month.

#### Scottish Rite Ladies.

Members of the Scottish Rite are preparing for an elaborate "ladies night" to be given at the Scottish Rite Cathedral on the night of October 18. There are to be tableaux, a musical program and refreshments. The attendance is to be limited exclusively to the wives, daughters or sweethearts of the members, because of the limited capacity of the assembly hall.

#### Severs and Streets.

Why the Ninth Ward has failed to get the sewers it so long has desired is one of the questions that is to be taken up vigorously at tonight's meeting of the Ninth Ward Improvement Association at No. 214 East First street. An enlightening report on the condition of streets and alleys also is expected.

#### Store Has Birthday Crowd.

Between 25,000 and 30,000 people, according to the management, visited the Fifth-street store yesterday during the annual fall opening. The announcement of a "birthday sale" proved an attraction that numbers could not resist. It was the store's second anniversary. All day long the human stream poured in and out. The opening was a record-breaker in point of attendance. It had been well advertised.

#### In Trouble Over Coins.

Edward Carpenter, accused by United States Secret Service agents of passing counterfeit coin, appeared in Federal Court yesterday with his counsel, L. C. Valentine. Carpenter was admitted to bail pending the action of the Federal grand jury. He maintains his innocence of guilty intent. According to his story, he met a man who owed him money, and received as part payment several five gold pieces. He claims he supposed the coins were genuine when he passed one at the Gans-Burns fight. Closing his eyes.

#### The honeymoon of Mr. and Mrs. J. Leslie Spence, who ran away from home and were secretly married, because their parents thought they were too young for wedlock, came to an abrupt close last night, after settling his bill at the Hotel King Edward, young Spence, 21, was arrested on suspicion of seeking parental forgiveness at their respective homes in the Mormon City.

#### Prescott Upheld.

Commissioner Ballinger of the General Land Office at Washington has sustained the decision of Register Prescott of the local office in the case of D. D. Feltel against Thomas J. Swisher, involving a contested entry on 160 acres, near El Centro. Swisher lived on the land continuously for a year, but a sick wife and a lack of money compelled him to go to San Pedro for work and medical attention. The contest against him was not regarded favorably by the local office, and the Washington authorities promptly agreed with Register Prescott.

#### Dynamite for Silent's Gun.

An Associated Press dispatch from Stanford University says that until permission is obtained from Treasurer Charles C. Lathrop, to dynamite the dam of Fells Lake, the mystery of the disappearance of Chester Silent's gun will probably remain unsolved. It has been impossible to drain the lake by ordinary means and Sheriff Langford will have the dam destroyed as soon as Treasurer Lathrop returns to the campus from San Francisco. There are no new developments in the case and the northern authorities are as much in the dark as ever.

#### Appeal Unsuccessful.

An appeal in the Express yesterday for aid for Mrs. Lina C. Carlisle, second cousin of the martyred President Lincoln, and who is ill at No. 1189 1/2 Wall street, is declared by news in close touch with the case to have been wholly unnecessary and unauthorized. For many months Stanton and Uncle Sam Relief Corps have been taking care of Mrs. Carlisle, and she has not suffered for lack of anything. Last month the association took a \$100,000 endowment fund for this institution, and it is believed that if the Grand Lodge will extend aid this year

## FRIGHT WAVE.

TERROR IN WAKE OF  
DEATH AND ASSAULT.
*Tragedy of Thomas McCue, Quick-  
 ly Followed by Vicious Attack on  
 Young Man, Points to Work of  
 Desperate Prowler.*

 A REIGN of terror has seized residents in the neighborhood of  
 Fifteenth and South Main streets. Within thirty-six hours after the  
 body of Thomas McCue was found, horribly mutilated, in an alley  
 in that immediate vicinity, a young man was attacked by some prowling  
 fiend and was saved only when the screams of alarmed residents  
 caused his assailant to flee. People of that section, thoroughly  
 alarmed, and fearing further attacks, have provided themselves with  
 arms, and the police are on the alert.

 The look of horror in the dead face of Thomas McCue expressed  
 some terrifying experience; the wild cries of fear of the unknown  
 young man of Sunday night told of an encounter with no ordinary  
 foe.

 Strange forms have been seen prowling about the neighborhood,  
 creeping onto porches and fumbling at doors, only to disappear sud-  
 denly at the approach of householders. At least one man says he  
 was within a few feet of the marauder that is causing the alarm,  
 but a door was between them. So far the detectives on the case have  
 got no clew to the offender.

 Quickly following the strange and  
 unexplained death of Thomas McCue,  
 and while their nerves still were tense  
 from the strain succeeding the discov-  
 ery of the mutilated body in the alley,  
 residents in the vicinity of Fifteenth  
 and Main streets were startled at 3  
 o'clock Sunday evening by a wild and  
 terrified scream of a man.

 Men who were brave enough rush-  
 ing into the street; women and children,  
 in fear, drew window shades. Those who  
 ventured forth were attracted by a  
 struggle under the trees at the south-  
 east corner of the two streets. At first  
 it appeared in the dim light as if a  
 dark mass. Then it was seen that a  
 man was resting on one knee, hold-  
 ing forth his hands as if begging for  
 mercy. Bending over the kneeling  
 form was another man, brandishing a  
 club or other heavy weapon.

 Upon the approach of rescuers, the  
 uppermost figure suddenly dashed  
 away from his victim toward the dark  
 alley, where the body of McCue had  
 been found.

 The rescue party found a young and  
 well-dressed man lying on the side-  
 walk. His face was deathly white,  
 while a heavy bruise over the left eye  
 showed where the assailant had beaten  
 him. Blood was flowing from his lips.  
 "Water," he begged, "give me a  
 drink of water."

 VICTIM DISAPPEARS.  
 Prof. G. W. Stevens, the first to the  
 rescue, ran to his home a few yards  
 distant. When he returned the young  
 man had gained his feet. Without  
 thanking Stevens for the drink or at-  
 tempting to explain the assault, he  
 staggered away in the darkness.

 The police are at a loss to classify  
 the perpetrator of the crimes. High-  
 wayman, crazy man, fiend—all have  
 been reckoned by the detectives in  
 their investigations. They have  
 thrown no light on the mystery.

 Is the man who assaulted the young  
 pedestrian, Sunday night, the murderer  
 of bewildered and intoxicated Thomas  
 McCue? There are many who believe  
 this is the case.

 The report of the Sunday night as-  
 sault following closely the discovery  
 of McCue's body, was kept quiet by  
 the police. Only the detectives engaged  
 on the case were informed. They were  
 unable last night to offer a solution  
 of the mystery.

 Residents of the uncanny neighbor-  
 hood discuss the affair gingerly. Some  
 profess to feel that the fact that the  
 wrath of the mysterious slayer. Many  
 of them saw the body of McCue in the  
 alley back of the Troy laundry, and  
 were terrified at the sight. They seem  
 to fear a like fate in the event that  
 they talk too much.

 The Fifteenth-street corner seems  
 well suited to the commission of crime.  
 The lot, vacant, lies flat and dark, ex-  
 tending back to an alley. Across the  
 street is a small room for a chapel.  
 "The one who was half lying on his  
 back screamed, 'Help, help, rubbers,'  
 he's killing me!"

 "I began to yell murder as loud as I  
 could and seized the hatchet and went  
 down stairs. When I reached the walk,  
 one man was running away and another  
 was prostrate on the walk."

 SCREAMS HEARD A BLOCK.  
 The screams of the victim of the as-  
 sault could be heard more than a block  
 away. At the home of A. M. Krause,  
 grocer at No. 121 West Sixteenth street,  
 a young member of the family heard  
 the screams and ran to the street but  
 could see nothing in the darkness.

 Yesterday, despite the fact that the  
 body of Thomas McCue had a dozen  
 marks about the head and face, the  
 coroner's jury returned a verdict of  
 accidental death.

 Evidence at the inquest showed that  
 McCue was last seen alive Friday night  
 at 1 o'clock. At that time he was in-  
 toxicated and staggered as he walked.  
 He would have been an easy victim for  
 highwaymen or even the common  
 "drunk roller."

 Detectives are doing everything in  
 their power to learn the identity of the  
 young man who was held up Sunday  
 night. From him they hope to obtain  
 a description of his assailant.

 MUCH SEWAGE IN FISH.  
 City and County Health Officers Ask  
 Supervisors to Stop Catching Near  
 Outfall Outlet.

 Dr. O. R. Stafford, County Health  
 Officer, and Dr. L. M. Powers, City  
 Health Officer, asked the supervisors  
 yesterday to prepare an ordinance  
 prohibiting the catching of fish, either  
 by seines or nets, within half a mile  
 of the outlet of the city's outfall sewer  
 at Hyperion.

 It is claimed that the city markets  
 are flooded with fish taken near the  
 outfall, and that they have fed  
 upon sewage until they are unfit for  
 food and spread disease among fish-  
 eaters.

 Deputy Dist. Atty. Shaw advised  
 that the board should pass the law  
 as a health measure, and he was  
 instructed to prepare the necessary or-  
 dinance to be taken up at the meet-  
 ing of the supervisors next week.

 The fish companies said that Japanese  
 fishermen are caught under the  
 Hyperion wharf, and make a regular  
 business of fishing in the waters there-  
 abouts.
HOLE UNDER  
STEEP PASS.
 Tunnel Will Do Away With  
 Newhall Grade, Making an  
 Easy Road.

 When the County Highway  
 Commission gets through with  
 the Newhall grade, Fremont  
 pass, bugbear of automobilists  
 and tortuous climb for horses,  
 will be a road no more. It will  
 stick up in the sky like a bridge  
 of land, sawed off at either end,  
 a good place for birds to nest  
 in undisturbed. Motor cars  
 and other vehicles will roll  
 through a tunnel under it, on  
 an easy, almost level highway.  
 It will no longer be difficult to  
 reach the Antelope Valley, now  
 almost shut off.

 Highway Engineer A. E. Loder  
 has been looking over the  
 ground for a week, and returned  
 last evening. He has already  
 prepared his report to the High-  
 way Commission, recommend-  
 ing a bore through the hill be-  
 low Fremont Pass, and as the  
 commissioners all favor the  
 project, its early carrying out  
 is assured. Instead of a terri-  
 ble haul over a 23 per cent.  
 grade, there will be an easy  
 ascent of not over 8 per cent.,  
 with no menace from overhang-  
 ing cliffs, as at present. Chief  
 Engineer Mulholland of the Los  
 Angeles aqueduct last night es-  
 timated that the tunnel will  
 cost \$75,000, which is consid-  
 erably less than generally sup-  
 posed. It will be about 600 feet  
 long.

 The present road, now the  
 hardest in the county, and one  
 of the worst in America for  
 automobiles, will be replaced  
 by a modern macadamized thor-  
 oughfare. The best the auto-  
 mobilists had expected was a  
 slicing down of eighty-five feet  
 at the pass.

## SHOCKING.

PRAYERS HURT  
THE PATIENTS?
 HOSPITAL SERVICES HARMFUL,  
 SAYS SUPERVISOR.

 Patterson Recommends That Meet-  
 ings in Wards Be Stopped on  
 Ground That Religious and Ner-  
 vousness Follow—Suggests Chapel  
 on the Grounds for Convalescents.

 Praying and gospel singing is a men-  
 ace to the health and comfort of pa-  
 tients at the County Hospital, ac-  
 cording to Supervisor Patterson; that  
 is, as these services now are conducted  
 in the various wards.

 He spent several hours at the hospi-  
 tal last Sunday for the purpose of  
 ascertaining just what effect upon pa-  
 tients followed the visits of bands of  
 religious enthusiasts to the "shut-ins"  
 of the different departments.

 In at least one instance, the Super-  
 visor told his fellow-members of the  
 board at yesterday's meeting, there was  
 a relapse because of the praying and  
 singing. In other cases, he explained,  
 patients became extremely nervous.  
 He believes that every such general  
 meeting in the wards is an injury to  
 some of the patients and recommends  
 that the practice should be stopped.

 But the President of the Board of Su-  
 pervisors does not wish to deny the pa-  
 tients the comforts of religious ser-  
 vices. He proposes that a chapel be built  
 on the hospital grounds, entirely sepa-  
 rate from the wards, so that conva-  
 lescents may attend services at their  
 will.

 His idea is to have a building suit-  
 able for the services of any sect or de-  
 nomination, the time to be so divided  
 that all shall be accommodated.

 This plan is to be followed at the  
 County Farm in accordance with a sug-  
 gestion of President Patterson, who be-  
 lieves that people should have  
 church privileges. Yesterday the Su-  
 pervisors accepted the plans of Arch-  
 bishop Hudson & McLeod for a chapel  
 at the farm. The building will be 24x45  
 feet, and will seat 150 people. There  
 will be a vestibule and on each side will  
 be a small room for the use of the  
 churches which conduct the services. A  
 small art-glass window will beautify  
 the front gable, and the interior of the  
 structure will be in Old English style,  
 with exposed woodwork and beams.  
 While attractive, it will cost only about  
 \$300.

 The Supervisors also accepted plans  
 for a physician's residence at the  
 County Farm. It will be of three rooms  
 and will cost about \$300. Plans for a  
 morgue at the County Hospital also  
 were accepted, and the advertisement  
 was ordered of bids for the building of  
 all these structures.

## HE TAKES TO COVER.

 Chinaman's Doctrine of "No Queue"  
 Puts Him in Danger of Hatred.  
 Discredit in Time.

 Because of relentless enemies, Chin  
 Foo Sam has deserted Chinatown.  
 From relatives and supposed friends  
 he has received, he says, only harsh  
 treatment and his life has been threat-  
 ened.

 The troubles of the Celestial are  
 due to an attempt to institute what he  
 believes are needed reforms among his  
 brethren. He is an educated fellow,  
 who desires to be thought an Amer-  
 ican. He has shaved off his queue,  
 adopted American ways. He wanted  
 to preach to the Chinese the "gospel  
 of the white man's clothing," and to  
 induce them to cut off their queues,  
 but they objected.

 Chin Foo Sam has money enough to  
 be independent, and thinks that the  
 time will come when his missionary  
 efforts will be welcomed. Meantime,  
 he is in retirement—to escape the  
 hatchet promised him by a powerful  
 tong, his fiercest enemy.
NO EXTENSION  
OF SANTA FE.
 Subsidence of Anti-Corpora-  
 tion Clamor Awaited.

 Kendrick Deplores Hysteria  
 in Legislatures.

 Says Conditions Here Better  
 Than in East.

 "If this clamor of the hysterical Leg-  
 islatures of the different States does  
 not cease, we will sweat before there is  
 the slightest improvement in the finan-  
 cial condition of the country. I believe  
 that there will be a further tightening  
 in the money market unless this indus-  
 trious outcry against all corpora-  
 tions ceases." These are the words of

 of the Santa Fe road, President Ripley  
 makes an official announcement that  
 all extensions and new work have been  
 suspended until public confidence in  
 railways shall have been restored.

 President Ripley also declares that  
 it will be impossible for the railway  
 of the country to obtain hundreds of  
 millions of dollars, which they must  
 expend if they keep pace with the  
 growing demands for transportation  
 unless the public begins soon to real-  
 ize that it has made a mistake in  
 vigorously and indiscriminately at-  
 tacking railways.

 To show that railway investments  
 have not proved as fruitful as others,  
 President Ripley states that during  
 1907, the most prosperous year in the  
 history of the company, the net earn-  
 ings averaged only 6.5 per cent. upon  
 the entire capitalization, which is be-  
 lieved to exceed the cost of repro-  
 ducing the company's properties at the  
 present time. Interest and dividend  
 payment for the year averaged less  
 than 4.5 per cent. on bonds and stock,  
 and for the last ten years the net  
 earnings have averaged less than 4.5  
 per cent. on the entire capitalization,  
 and the average dividend and interest  
 payments less than 3.71 per cent.

 In order even to accomplish these  
 results it was necessary for the com-  
 pany to expend for improvements, ad-  
 ditional equipment and for new con-

J. W. Kendrick, second vice-president of the Santa Fe.

 who says that "no railroad which has obeyed the law need fear any present  
 law or administration, but the trouble is that the public has not yet  
 learned to discriminate between the honest and the dishonest corpora-  
 tions—hence the slump in stocks and securities."

 J. W. Kendrick, second vice-president  
 of the Santa Fe, who arrived in Los  
 Angeles last night by special train. He  
 was accompanied by J. E. Gorman,  
 freight traffic manager of the Santa  
 Fe. Both gentlemen are registered at  
 the Alexandria.

 Mr. Kendrick was loath to discuss the  
 financial condition of the country, but  
 spoke freely of the intention of the  
 Santa Fe to stop all expenditures for  
 improvements and confine itself to  
 keeping in repair its system until what  
 he terms "the hysterical cloud of fa-  
 naticism" passes over.

 ONLY CAPITALISTS SCARED.  
 "I do not believe that it is only in  
 the West that investments are now un-  
 safe. The capitalists of the entire  
 country seem to have become fright-  
 ened and will not invest anywhere,"  
 Mr. Kendrick continued. "The small in-  
 vestors are not so scared, fortunately,  
 and are preserving a measure of prop-  
 erty in certain sections of the  
 Union."

 "It is the big man who has been hit  
 by the recent slump in stocks and the  
 most important securities. The tightness  
 of money is not felt so acutely in the  
 West as in the East, but it is in the East  
 that has the last word in regard to  
 furnishing money for extensions of  
 railroads and improvements. The West  
 is very well off just now, but it cannot  
 afford to finance railroad building."

 Mr. Kendrick plans to make a tour  
 of inspection of the Santa Fe from  
 San Diego to San Francisco. He will  
 remain here nine days. He disclaims  
 any interest in the Federal investiga-  
 tion as to alleged rebates, now in pro-  
 gress in this city.

 PLESASANT PREDICTION.  
 The official thinks that in the near  
 future the West will not have to look  
 to the East for the financing of enter-  
 prises.

 "The present slackness in business  
 has affected the West comparatively  
 little," he said. "In the East they fear  
 the worst, but after you cross the Mis-  
 souri, there seems to be a different  
 feeling. Crops are good and every one  
 seems to be prosperous."

 "The slump in securities is not due  
 to any mistake of the Federal admin-  
 istration, but to wrong impressions of  
 the government's intentions. No rail-  
 road which has obeyed the law need  
 fear the administration, but the in-  
 vestor has not learned to discriminate  
 between the honest corporation and the  
 dishonest one."

 Mr. Kendrick stated that, while here,  
 he would have a consultation with Mr.  
 Norton, recently appointed general at-  
 torney of the Santa Fe. He was glad,  
 he said, that the young attorney had  
 been so honored.

## LARGE MILLING DEAL.

 Vice-president Kohlmeier Sells Half  
 Interest in Atlas for Hundred  
 Sixty-five Thousand.

 C. C. Kohlmeier yesterday sold his  
 half interest in the Atlas Milling Com-  
 pany to Valentine Kratz and the Kratz  
 family for a reported consideration of  
 \$165,000. Mr. Kohlmeier has been vice-  
 president of the company since it was  
 founded, about seventeen years ago.  
 The plant is located at No. 807 South  
 San Pedro street, and consists of a  
 modern mill and a large two-story  
 brick building, occupying the entire  
 corner. This plant is estimated to be  
 worth \$300,000. There is said to be  
 about \$100,000 worth of stock on hand,  
 grain and storage, etc., which also  
 changed hands in the transaction. In  
 addition there are book accounts  
 amounting to \$50,000, which are re-  
 ported to be included in the transac-  
 tion.

 As part payment Mr. Kohlmeier, the  
 retiring vice-president, has taken a 125  
 acre orange and walnut ranch near  
 Fullerton, lying in one of the most fa-  
 vored locations in the fruitful Santa  
 Ana Valley. The ranch is valued at  
 \$100,000 and was considered by Col.  
 Northman, who owned it formerly, as  
 the choicest of his holdings. The re-  
 mainder of the valuation is said to  
 have changed hands in cash paid. H.  
 P. Ernst is the agent reporting the deal.

## ANOTHER TAFT CLUB.

 Third Ward Republicans Organize to  
 Promote Campaign of the Popular  
 Candidate.

 Still another Taft club was formed in  
 Los Angeles when Republicans of the  
 Third Ward perfected an organization  
 last night with the following officers:  
 President, Gavin W. Craig; vice-presi-  
 dent, Clement L. Shinn; secretary,  
 Frank H. Mouser; treasurer, W. A.  
 Henry. An executive committee is to  
 be appointed by the president.

 The principal object of the club is  
 "the candidacy and election of William  
 H. Taft as President of the United  
 States, believing that he is the best  
 fitted and the most likely man to carry  
 out the policies of our beloved Presi-  
 dent, Theodore Roosevelt."

 As to local officers, it is announced  
 that the club pledges its support to the  
 best men available who exemplify the  
 higher ideals in politics and good gov-  
 ernment.

 Regular meetings are to be held on  
 the first Monday in each month. El-  
 igibility extends to Republicans who  
 are in favor of the Roosevelt policies.

## COLUMBIA TRUST COMPANY

The Americans described the man he wanted, and he started for the border. Que had joined the Queen's army, therefore Wui joined the rebels. He was trusted by generals. As an scout, he entered the lines of the Imperial army and located Que in his tent. That night he entered the tent, sound and gagged the victim, put him in a sack and carried him to the rebel army. The next day a flag of truce was sent out and the story told to the general of the Imperial troops. He agreed that the Los Angeles merchant was entitled to the man.

"Then came the march to Lung Tse, from the standpoint of an American, but in China the avenger can choose his own mode of punishing and Wui's oath was made in the passion of grief. He has fulfilled it."

### BUYING LOTS FOR HOMES.

Several Deals That Will Mean More Handsome Residences—Number of Sales Yesterday.

Richard Dillon has purchased a lot 80x170 feet on the northwest corner of Commonwealth avenue and West Fifth street for a reported consideration of \$4400. The adjoining lot, with a frontage of sixty feet on Commonwealth avenue, and the same depth, has been purchased by Daniel G. Grant for \$3800. Both buyers are planning to build handsome homes on the property.

Tracy E. Shoups & Co. report the following sales in Vermont Avenue Square: A lot on Fifth street between Budlong and Beach avenues, 44x148 feet, to William Kinney for \$1800.

Conway & Kessler have sold to W. C. Thornton, the southeast corner of Thirty-ninth street and Wesley avenue, lot 190 feet square, for \$6500. J. H. Rice has sold to Watkins Bros., through the same agents, a lot 50x148 feet, on the west side of Maple avenue, 200 feet south of Twenty-first street, for \$2750. H. Kleinwinkle sold to William H. Tipton the southeast corner of Lewis street and Vermont avenue, lot 42x148 feet to an alley, for \$1800. A local investor has purchased from George H. Rector, a lot 50x125 feet on north side of Forty-eighth street near Beach avenue, for \$800.

### CAN'T PAY SUBSTITUTES.

District Attorney Says No Provision Is Made for Vacations of Court Clerks With Pay.

If county employees want vacations, they must pay their substitutes. This was decided yesterday by the Supervisors and the District Attorney, when they denied the demand of George W. Purdue for \$150 salary as substitute clerk in the township justice courts. Purdue filed the places of clerks in the four township courts when they took their annual vacations. Now he demands payment from the county. The regular clerks have drawn their full salaries.

The District Attorney informed the Supervisors that they have no authority to appoint substitute clerks. "Clerks of these courts are on the same footing as all other employees," says the District Attorney. "If they want vacations, they must hire their own substitutes."

### OPERA PEOPLE COMING.

Special Train of Italian Singers Due in Los Angeles Early This Morning.

The entire aggregation of the grand opera will arrive this morning in a special train over the Southern Pacific—due here at some early forenoon hour. Including its mechanical force, orchestral players, choristers, principals and others, the music-drama retinue will comprise about 150 people. Impresario Lambardi, who had intended coming down Sunday night, was delayed, and will arrive today. Two carloads of properties and scenery arrived yesterday, and three carloads more should arrive today.

The Auditorium, which has been a very quiet place during the summer months, save for occasional special performances, will today resume its wonted activity.

Continuing today, the second day of our first great Autumn Sale, we will sell at exactly half marked price all broken lines of hosiery, underwear, gloves, ribbons, laces, embroideries, parasols, neckwear, belts, fancy goods, etc.

## Tremendous Values In Laces and Embroideries

A leading New York manufacturer of shirtwaists and undersuits decided to retire. He sold to another manufacturer his entire stock of materials and trimmings with the exception of one lot of laces and embroideries which were still on the water. These he offered to us, but as it was impossible to examine the goods before purchasing we would agree to accept them only at a very small fraction of the price at which they were billed. Being anxious to wind up his affairs, he sold us the goods at our own figure.

Upon opening this consignment we found that, owing to recent advances, not a piece in the lot could have been bought at the price originally paid. Coming to us at less than half, they are the most remarkable values we ever saw.

Included are embroideries in match sets, fresh from St. Gaul, Switzerland, finest Swiss and nainsook edges, flouncings, bands and insertions in widths from 3 to 20 inches. Values range up to \$1.00 and the entire lot will be placed on sale today at 19c. Laces are in the newest designs to be used next spring—a manufacturer must purchase these far in advance—and include Venise, Oriental, Filet, etc., in white, cream and ecru, edges, bands, medallions, festoons and crescents. Values range up to \$1.75 and the entire lot will be placed on sale today at 35c.

## Autumn Sale of Silks and Dress Goods

The most remarkable silk and dress goods values ever offered in Los Angeles characterized the first day of this sale. #### COSTLY GIFT OF AFFECTIONS.

Woman, Seeking Divorce, Withdraws Suit Against Rival for Affection of Husband's Friend.

Not only has Mrs. Man Peckles been reconciled to the loss of the fifty-thousand-dollar affections of her husband, but she wants to lose him altogether, apparently.

Charles Peckles is, or has been, the manager of the Hotel Oakwood at Arroyo, and is well known to local sporting men.

His wife claims he introduced himself with a woman named Abbie Trudwell Hall. She says they were married in November, 1897, and lived very happily together nearly ten years, until her husband became acquainted with the fascinating Mrs. Hall.

After that she was the best to treat her very badly, and her life became an unendurable series of insults and abuse. She says he palisaded around with Mrs. Hall all the time, went to Venice with her, registered at fashionable hotels in the city and the country with her, and spent all his time with her.

In July she commenced suit for \$50,000 against Mrs. Hall for alienation of affection, and also a suit for divorce. The first-named suit has now been dropped. The divorce suit will continue.

WORD DUEL BETWEEN OFFICERS AND HER LAWYER.

Former Admit They Have No Warrant and Attorney Captures Their Prisoner—Wanted as Witness in Case of Salesman Accused of Sending Obscene Letter Through Mail.

There was a duel of words, yesterday, between Attorney Fred Thompson and Patrolmen Oaker and Berchidski when, after examining the entire morning for Mrs. Minnie Brown, the star witness in a Federal case, the attorney came upon the officers as they were about to escort her to the City Jail. The officers declared that they had no warrant in one of the offices of the United States Marshal.

Thompson made straight for the United States clerk and learning that the charges had been placed against Mrs. Brown, he hurried back to the officers.

"You can't take this woman," said one of the officers.

"I am her attorney and I will talk to her," retorted Thompson.

The officers started to escort Mrs. Brown from the room.

"Stop!" said Thompson, barring the doorway. "I have a warrant for this woman's arrest."

"No," admitted the officers.

"Then she comes with me," said Thompson, and he walked away with his client.

"I intend to keep a strict watch on Mrs. Brown," said Thompson, yesterday afternoon. "She came from Goldfield Saturday to appear as a witness in behalf of Mr. Robinson, a jewelry salesman. Robinson was arrested here on suspicion, several days ago. The officers searched his room, found a letter which was left by him, and before this letter was addressed to Mrs. Brown at Goldfield and had been properly opened, read and opened. A charge of sending obscene matter through the mails was filed against him."

"I sent to Goldfield for Mrs. Brown. She denied ever having seen the letter, and she was taken away. She has been staying in Boyle Heights. Yesterday morning she had an engagement with me at a certain hour. She telephoned me when she left the house and when she failed to appear at my office, I became anxious. I went to the County and City jails. She was not at either place. Finally I found her in the charge of the officers in the Jail Block. She later told me that when she left home she noticed two men in plain clothes following her. In order to make sure that she was being followed, she left the car before it had gone very far and then the officers took charge of her and escorted her to the Jail Block. I arrived in time to prevent her being taken to the City Jail. She will appear as my witness in this case if I have to hire a guard for her."

#### SHE SCARES BURGLAR.

### Young Woman Finds Man in House and Frightens Him Away With Umbrella.

Miss May Natthoff, 22 years old, says a would-be burglar from her home at No. 137 Winfield street last night. An hour later the man returned, but was again driven away.

After spending the evening with friends, Miss Natthoff returned home about 11 o'clock, and Mr. and Mrs. Natthoff went immediately to their rooms upstairs.

Miss Natthoff went into a rear room. There she met a man attired in an automobile coat, goggles and a cap. He rushed toward her, threatening to strike her with an umbrella. She leaped through an open window and disappeared. The young woman heard him whistle, and then an automobile drove up for her.

An hour later a noise was heard at the same window. The police were notified, but the man had gone before officers arrived.

#### WOODEN BOXES DOOMED.

### Local Packers Find That Cardboard Cases Are Cheaper and Better for Shipping Purposes.

Wooden boxes for packing crackers and light goods are doomed. Cardboard cases are to take their place. Carried lots of the lighter cases are arriving from the East, competing with local packers. Bishop & Co. are among the first to use the lighter boxes for shipping goods.

The cardboard cases, which are made from heavy jute, are said to embrace all the qualities of the wooden boxes. The cost is approximately 50 per cent. less. To this is added the saving of freight charges on large consignments.

The cardboard case has been done away with in some instances, and instead a heavy corrugated paper is being used. To this is added a thick lining of wrapping paper, which protects the goods and makes possible the preparation of a light package, which can be expediently handled.

Wholecase grocers are also using the cardboard case extensively. Its cleanliness appeals to them. The recent advance in the price of wooden packing boxes has induced many to try the cardboard case, which has passed better than expected.

J. A. Jevne, general manager of the Jevne stores, said last night: "For packing lighter groceries, cardboard, and certain kinds of perishable goods, the cardboard case, which has passed better than expected, will be used in large shipments. It makes an appreciable difference in freight charges."

### ROBBERS TAKE MONEY, WATCH.

### HOLD-UP EFFECTED AT MUZZLES OF TWO PISTOLS.

Highwaymen Take Men's Valuables at Orange and Figueroa Streets—After They Leave Him He Can Give Only a Poor Description of Them.

Holding the muzzles of two automatic pistols to his head, and threatening to kill him instantly if he uttered any outcry, a pair of highwaymen robbed H. Graves of No. 1243 1/2 West Seventh street, at Figueroa and Orange streets, of a watch and \$20, about 10 o'clock last night. The robbers escaped.

While Graves was making his way along Orange street toward his home, he noticed that he was being followed. At Figueroa street two men came up from behind. Both were short, rather heavily built, wore masks and dark clothing. The heavier of the pair had a cap on his head. He did the talking.

"Has you got or watch?" he inquired of Graves.

Unhesitatingly crying the pair, Graves stepped slowly to one side and remarked that he did not have one.

"Well, you're pretty fresh," said the robber to Graves, and quickly turning to his pal, said in a low tone: "All right, Bill, let him have it if he says a word."

The next instant Graves felt the cold barrels of the pistols at his temples. The smaller man was through Graves' pockets very quickly, taking all that was valuable. Then they warned their victim that he was to stand still with his back to them until he felt sure that they had disappeared, and that if he should accidentally become nervous or make an outcry, or turn around, they would shoot to kill him.

Graves declared that the men stole away so quietly that he could not tell just when they went. After a while he walked away from the scene and notified the police.

Officers were detailed to search for the pair, but, owing to the poor description the police have of the highwaymen, they do not believe there is much chance of capturing them.

"It may be the same old story," said an officer, "but we doubt it. They are probably the only professionals in the city, while the men who held up the two citizens last week in the southern section of the city were amateurs."

#### INCENDIARY FIRE.

An incendiary fire in the rear of the home of M. Roberts at No. 723 South Los Angeles street, endangered several thousand dollars' worth of property last night. But for the timely discovery it would have resulted in a conflagration, fireman say. A chicken-house was burned and the loss was about \$2,000. The fire was caused by a candle. No clew to the firebugs could be found.

### CHICAGO CLERGYMAN COUNTS THE CAFE CUSTOMERS.

Large Majority of the Women Seen in the Restaurants Were Drinking Liquor of Some Kind—Interesting Statistics Gathered for His Critic to Study.

[Chicago Tribune:] The Rev. Frederick E. Hopkins, pastor of the Pilgrim Congregational Church, Chicago, went home at midnight both convinced and "tuckered out." All afternoon and evening he had led a party of several men on a tour through many of the leading downtown restaurants, obtaining statistics on what he terms "boozing women."

The preacher placed in the balance his position on the question, as against that of his critics, who declared he was wrong. Following are the net results: Women seen in restaurants drinking liquor: 40; Number of women drinking liquor: 10; Number of women drinking gin: 10; Number of women drinking rum: 10; Number of women drinking brandy: 10; **WE** announce the greatest event in the mercantile history in Los Angeles, for we have six big warehouses filling up with merchandise purchased specially for the opening of our "new store," as we expected to move into it on October 1, but delays in building now make it impossible for us to get into the new location at 8th, Broadway and Hill Sts., before Easter. The goods are here—they must be sold, so consequently we must lose sight of profits in most cases to reduce stocks quickly. Come prepared to expect much for you will receive even more and never lose sight of our store axiom, "Safest place to trade" and "What others advertise we sell for less." The sale started out with a big rush Monday morning and because of the great values offered we have no hesitancy in declaring that it will be the biggest sale that any firm has ever had on the entire Pacific Coast. From day to day we will advertise special sales items but always remember that there are thousands of articles that never find their way into print yet are priced at a saving of from a third to a half.

## MAKE TRENCANT POINTS ON KENT.

DISCIPLES SHOW FIGURES FOR VACATION.

Evangelist Declares There's Too Much Counting of Noses—Methodist Ministers Hold Annual Election—Nazarene Delegates Start for Chicago for General Assembly.

The Ministerial Association of the Christian churches of Southern California met at the First Church, this city, yesterday, and reports made indicate that notwithstanding the intervention of the vacation season since the last meeting, the work made marked progress. Thirty ministers attended the meeting and made reports showing an increase of 40 in the membership of the churches under their charge, during the past two months.

W. H. Martin of Whittier, read a paper reviewing Kent's "Origin and Permanent Value of the Old Testament," in which he took the position that orthodoxy does not necessarily require that one should accept the historical view of such books as Job and Jonah, but that any theory that attempts to explain the development of the Old Testament on purely natural grounds, is self-condemned. He said:

"Most of the theories of the critics are unwarranted assumption. The results of archaeological exploration have convinced candid investigators of the fallacy of the extreme views of higher criticism."

W. G. Conley said in discussing the paper, "If Prof. Kent is a representative of the moderate school of criticism, the Lord save us from the radical school. I do not believe that an official, technical education in the German University is a better qualification for judging than plain common-sense."

W. G. Conley said in discussing the paper, "If Prof. Kent is a representative of the moderate school of criticism, the Lord save us from the radical school. I do not believe that an official, technical education in the German University is a better qualification for judging than plain common-sense."
